Dear Mike,

This quote details the computers to be replaced in the first installment of regularly-scheduled PC replacements for 2020. This consists of 10 desktops and 2 Surfaces.

*Replacements of computers for the Park District are typically completed in 2 installments per year. However, with the late start to the replacements this year due to the COVID-19 pandemic, **this first installment of replacements is scheduled for October of 2020**. Deployment of this installment of computers will be followed by a second installment in November, which will replace the remaining computers scheduled for 2020.*

The following table specifies the computers to be replaced:

| User | Warranty Expiration Date | Location |
|---|---|---|
| Lois Becker | 9/23/2017 | Arrowhead Golf Club |
| Matt Nations | 5/6/2019 | Arrowhead Golf Club |
| AGC Hostess | 5/6/2019 | Arrowhead Golf Club* |
| Kim Prazak | 5/6/2019 | Arrowhead Golf Club |
| AGC Starter Tablet #1 | 1/24/2018 | Arrowhead Golf Club |
| AGC Starter Tablet #2 | 1/24/2018 | Arrowhead Golf Club |
| Parks Plus Fitness Front Desk #2 | 7/10/2016 | Community Center |
| Randy Tucker | 5/6/2019 | Prairie Office Building |
| CC Front Desk Class Schedule Computer | 5/6/2019 | Community Center |
| Nick Parisi | 5/6/2019 | Community Center |
| Mary Janik | 2/15/2020 | Prairie Office Building |
| Carolyn Pierotti | 5/6/2019 | Community Center |

*Denotes a Point of Sale (PoS) workstation

***Several of the computers being replaced are Point of Sale (PoS) systems,*** and these are need of peripherals replacement. We have included two additional sections of this quote to specify the equipment needed, as follows:

- Touchscreen Replacements
- Peripherals to Obtain from VSI

*The Touchscreen Replacements section* details options for replacement of the touchscreen monitors that are on these devices, many of which are reaching the end of their useful life. Many of the touchscreen monitors currently deployed throughout the network are not used in such a way to leverage their touchscreen capabilities, so replacing them with standard monitors is an option. However, it may be desirable to keep touchscreens deployed with the PoS computers because of the fact that future PoS operators may prefer the touchscreen capabilities over the conventional mouse and keyboard. Both options are listed here.

*The Peripherals to Obtain from VSI section* contains the other peripherals commonly connected to PoS workstations (in this case receipt printers and cash drawers). To ensure compatibility with RecTrac, we recommend that these be purchased from Vermont Systems (VSI) directly. This section details estimated prices and quantities of the devices necessary for this installment of new PC deployments. *The total shown in this section is a budgetary estimate only, and the components themselves will need to be purchased directly from VSI.*

If you have any questions or would like to discuss this quote prior to signing, please let us know. To order, please return a signed quote to AIE.
