Dear Mike,

The following quote details the hardware needed to set up a home office for Diane Hirshberg. This includes a docking station, two monitors, UPS and additional cables.

Please note that a second docking station is important for Diane's home. Her current docking station is difficult to disconnect from her office and she would need to reconnect it every time she changes offices.

If the quote is acceptable, the equipment will be shipped directly to Diane.

Let us know if you have any questions.

Best regards,

Dayane Alves
