Dear Mike,

This proposal includes labor required in order to replace the existing SAN at the Wheaton Park District. In order to meet the specifications for the SAN Labor Quote, AIE will provide the following requirements:

- Project Manager: Jeremy Wills
- Technical Team: Mark Bartlebaugh, Nick Christofferson, Geoff Pearson and Bob Ewoldt.
- Proposed Timeline: Upon receipt of signed proposal along and down payment, product ordering will take place within 2 days. Delivery of hardware to AIE's office is estimated between 1-2 weeks, dependent on the distribution's shipping time frames. AIE will coordinate with V96 and WPD to determine a best time for the server downtime during project deployment. AIE aims to have the project complete within four weeks from receipt of down payment and signed proposal.
- Coordination with MSP: Coordination efforts will include working with V96 and WPD to ensure a timely delivery of the project while keeping both parties apprised of the progress of the project via weekly calls and emails, and daily where appropriate.
- Outlined in this proposal are the individual tasks required by the RFQ in order for a successful delivery of the project.
