Subject: Phone System and Phone Numbers

Hi Mike,

Just a quick update note. The bulk of numbers and phones are installed and operating. We are working on a punch list to complete the phone system change. George is going to the sites between today and mid/late next week to pick up phones to inventory for disposal.

****SUPER IMPORTANT****

1. LOA: George is preparing a second LOA (Letter of Authorization) to move/port numbers from AT&T to ANPI. They had issues with a couple which we have done work arounds temporarily. The **LOA is super important to get signed ASAP today or Monday** when it is prepared and ready. I will make sure you have it but immediate signature will help us remove AT&T and their contracts.
2. POTS – Analog lines: We are preparing service order forms for the remaining lines to be ported over to a different company. These lines will then have AT&T service but through a third party provider. This will allow us to have better customer service and at least price parity or less expensive service pricing on the remaining lines that use this service... such as alarms, etc.

I'm happy to discuss. Are you in the office Monday?

Regards,

Adam
