PROPOSAL NOTES & DETAILS

PROPOSAL INFORMATION/NOTES

- The proposal is based on design by RCP Shelters, not necessarily an exact match to bid or architectural drawings.
- Lead times may vary significantly based on design complexity, seasonal demand, and current backlog.
- Simple material supplier PO or signed proposal/order form are acceptable for ordering. PO legalese will be rejected.
- RCP Shelters does not accept orders with contingent liability or liquidated damages.

DESIGN / ENGINEERING

- RCP value engineers for the minimum number framing members to minimize cost and provide structures as open and accessible as possible. Final design may not reflect the same number members, sizes, or spacing as images on RCP's website and catalog or preliminary or bid drawings.
- Design requirements not disclosed to RCP prior to proposal or required revisions resulting from information not previously disclosed are subject to additional fees. Common examples are site-specific requests/requirements and pertinent foundation information, including but not limited to geotechnical reports, foundation depth limitations, epoxy anchor design, or installations near or connected to other structures causing drift snow loads.
- Standard cylindrical shaped foundation design, minimum 24" diameter, based on assumed soil values, is included. Alternate or custom foundations may be designed by others, with column base reactions provided by RCP.
- RCP's anchor bolt option is valid only for foundations designed by RCP.
- Local code may have requirements that are not the responsibility of RCP.
- Each project is designed for its specific location after receipt of order. Occasionally, engineering determines that materials not included in the proposal are required. Such materials shall be provided by others.
- Drawings provided by RCP Shelters with this proposal are preliminary and are not for construction. For complete project specific details, engineered drawings can be purchased separately without obligation to purchase the structure.

FABRICATION / SHIPPING DETAILS

- Shipping dates are not guaranteed.
- Freight is priced based on pooled loads to a location accessible by a flatbed semi-trailer.
- Upgrade to dedicated truck or split shipment is available for an additional fee.
- Trucking will call at least 24 hours prior to delivery to coordinate.
- Offloading by others. Materials must be stored off the ground and kept dry.
